PROFILE

Skilled in React.js, JavaScript (ES6+), TypeScript, Next.js, HTML, CSS, and Tailwind CSS. Proficient in building responsive UIs from Figma designs, integrating APIs with libraries like Axios, and managing state effectively. Strong problem-solving skills and fluent in English, ensuring smooth collaboration in team and remote settings.

WORK EXPERIENCE

GR8   JUN 2024 – DEC 2024
Frontend developer

- Led frontend development for a Spanish Real Estate Company, creating responsive UIs from Figma designs using Tailwind CSS.
- Worked as a freelancer in a group, collaborating with the backend team to meet deadlines and implement feedback.
- Improved skills in responsive design, problem-solving, and teamwork.

Sina Plant Store

Frontend Developer, Designer &   2024 - PRESENT
Database Manager

- Developed a Flower Shop Website using React, TypeScript, and Next.js, focusing on performance optimization and efficient routing.
- Enhanced User Experience by integrating Framer Motion animations, multi-language support, and local storage.
- Managed State using Context API, React hooks, and integrated Supabase for backend data management.
- Currently implementing .NET as the backend with the help of a backend developer to improve the website's backend functionality.
